MARKING OF THE PRODUCT

09.04.2025

1. PRODUCTS COVERED BY THE CERTIFICATE

Every product must be provided with a fixed and easily legible label or marking containing at least the following information:

• certificate number;

• normative document on the basis of which the certificate was issued and to which the product complies;

• performance covered by the certificate (fire resistance and/or smoke control and/or self-closing class)*;

• name of the manufacturer (address may also be included);

• type and/or name of the product;

• serial number or unique reference number of the product;

• year of manufacture (if the serial number or unique reference number of the product does not include a reference to the year);

• the certification mark of Kiwa Estonia OÜ or the inscription "Kiwa certified" shall be placed at the top of the label.

• In the case of a CPR certificate, the "CE" symbol and the identification number of the product certification body may be added to the label.

*The manufacturer may declare performance only for the complete end product.

Label dimensions (W x H, mm): 25-40 x 55-70.

The label must be located on the frame and edge of the leaf of the opening opening, on the frame of the non-opening opening.

Additional obligations in the harmonized field:

When marketing its product, the manufacturer shall draw up a declaration of performance of the product in accordance with Regulation (EU) No 305/2011 of the European Parliament and of the Council.

The CE marking, drawn up in accordance with Regulation (EU) No 305/2011 of the European Parliament and of the Council, shall be provided with the product sales documentation.
